Winter 2014 News from FSI

Happy Holidays from all of us at FSI

FSI will be closed Dec 25 & 26 and Jan 1 & 2

NeuroCheck Machine Vision Training- Feb 4-5, 2015

Join the engineers of FSI Technologies Inc. for our next round of Machine Vision/NeuroCheck software training. Classes will run February 4-5 in the western Chicago suburbs. Material covered will include machine vision “basics”, an overview of system hardware, lighting and lens selection, as well as NeuroCheck software tools, programming and example applications. For more information about our seminars contact FSI Customer Service at 1-800-468-6009 or go [to http://www.fsinet.com/Training-Overview.htm](http://www.fsinet.com/Training-Overview.htm)

Save The Dates

Automate 2015 March 23-26 – McCormick Place – Chicago

Stop by the FSI and EVT booth to see the latest in Machine Vision technologies.

NeuroCheck Version 6.1 Now Available

NeuroCheck 6.1, the latest generation of the configurable machine vision software with numerous new features and enhancements, is now available. For the development of the new version 6.1, the focus was on integrating new sensors and camera components, modern communication interfaces and further simplification of operation. For example, sensors are available that generate a height image using triangulation, a stereo camera or structured light, which can then be evaluated by NeuroCheck 6.1. ([read more](#))

Check Out the Newest Products from EVT- EyeVision Technology from the FSI Blog:

- EVT EyeVision 3.0 Machine Vision Software now also supports LATAB light controller and lights. ([read more](#))

- The EyeVision 3.0 now offers a graphical user interface (GUI) in Spanish. ([read more](#))
 - EVT introduces the new EVOS system for the reading and evaluation of container numbers for the railroad and shipping industries. ([read more](#))
 - EVT has developed a command set for thermal imaging with their EyeVision3 software. ([read more](#))
 - EVT presents the new EyeCheck smart camera with an electrically tunable lens by Optotune. ([read more](#))
